Re: 2018 Annual Jail Inspection

Dear Sheriff Smith:

On April 25, 2018, the annual inspection of the Dunn County Jail was conducted pursuant to WI Statute 301.37(3). The inspection compared the facility and its operation to applicable state statutes and Department of Corrections' Administrative Code Chapter DOC 350. This report summarizes my findings, including the progress made following the 2017 inspection, any statute or administrative code violations, physical plant and maintenance issues, and an overall summary of facility operations. The inspection worksheet is attached to this report and includes detailed inspection results.

On the day of the inspection, there were 110 inmates incarcerated in the facility.

Progress Following the 2017 Inspection

- Twelve hour shifts started January 1, 2018
- A POSC instructor has been added
- The jail hallways were painted
- The visiting room was switched over to a video visitation area where inmates now receive visits through a kiosk or tablet. Inmates can also use this space for video court.
- Renewed contract with [REDACTED] to provide preventative maintenance for the Touch Door system
- Food service vendor switched to CBM
- Contracted with Eau Claire and Trempealeau County to house inmates for them
- Acquired a new vendor for UA cups
- Additional cameras were added to the facility
- Narcan is stored in the facility for Deputies and Correctional Officers to use
- Expanded the electronic monitoring program
- Formed a partnership with Vets Plus for hiring Huber inmates

Goals and Initiatives

- Changing vendors for GPS and alcohol monitoring
- Modify Huber fees
- Looking to have all Huber inmates who leave the jail wear a GPS unit
- Replace the dishwasher in the kitchen
- Install a new elevated booking counter

Physical Environment

The Dunn County Jail was originally constructed in 1999 and consists of podular-remote and dormitory style housing units. The facility has a maximum rated capacity of 160 adult inmates and is not approved to hold juveniles..

Summary of Jail Operations

I met with the administrative, security, healthcare, and foodservice staff to conduct the annual inspection. The site visit included a review of facility records and documentation as well as a walkthrough of the detention areas. The attached checklist details my findings as they relate to the Department of Corrections Administrative Code Chapter DOC 350 and applicable State Statutes.

The Dunn County Jail does an excellent job providing resources for inmates who are incarcerated in their jail. The facility employs a full-time staff member to oversee programming, along with overseeing the volunteers that help provide those services. Overall, the Dunn County Jail provides over 40 different programs for inmates to include education, support groups, life skills, and religious services.

The Dunn County Jail also provides visitation for inmates via kiosks, which were installed this year. Recreation is afforded to inmates, both indoor and outdoor (when weather permits), along with dayroom activities. Commissary items are provided by Stellar Services, which inmates can order once per week.

In summary, the overall appearance of the jail was in satisfactory condition. After a walkthrough of the detention areas, there were no repetitive complaints from inmates regarding conditions of confinement or staff supervision. The staff is to be commended for the overall positive climate and their observed professional interaction with inmates.

Violations

The following violations were documented during this inspection:

- **350.24 Discipline** – A spot check of both minor and major discipline reports showed certain due process procedural steps were limited. A review of records did not show inmates being afforded the opportunity to make verbal statements, a supervisory review, or the inmate being afforded the opportunity to be present at their hearing. Administration is encouraged to create a process where all due process steps are being met.

- **350.17(10) Documentation of actions and decisions regarding inmates who are suicide risks, including all of the following:** - A review of records indicates non-compliance. Several records reviewed lack information regarding dates and times of suicide watch placements, supervisor notifications, and mental health notifications. Administration is encouraged to implement a procedure to make sure all code required information is being documented.

Approval

The Dunn County Jail is approved by the Department of Corrections for the secure detention of adult inmates with the maximum capacity of 160. This approval is contingent on the continued compliance with all applicable state statutes and administrative codes.

I wish to thank Captain LaForte and her staff for their assistance, cooperation and professionalism during the inspection process.

If you have any questions regarding the inspection results summarized in this letter and found in the inspection worksheet attached or if I may be of any assistance regarding correctional matters, please contact me.

Sincerely,
